

IKON TRIO

Imagine a triple layer mattress. Three bespoke layers working independently, yet also in harmony. Zoned Aircore sleep technology provides adaptable support. High density materials ensure an even weight distribution and soothes pressure points. A WaveCut system underpins the IKON Trio by providing a bedrock of support with in-built ventilation. Three layers adding up to one supremely luxurious mattress.

The Trio demonstrates synergy in action to deliver a mattress ideal for those who value good looks and support.

WaveCut System

As well as providing air exchange, the WaveCut has multi-zone layering providing optimum support for the different body zones.

Air Core

Featuring Open cell sleep technology. Providing a fresh, cool sleeping environment no matter the temperature.

Removable Zip Top

Designed with the user in mind. The removable Top cover allows easy washing, no more struggling With a large cover. Easy, quick and simple.

4G Technology

The latest innovation in sleep technology, 4G. Providing the most optimal sleeping surface for support and comfort, without the temperature issues. The best of both worlds.
